Learn what Innovation Engineering can do for you and your students.

**INNOVATION ENGINEERING INFORM SESSION**

Innovation Engineering is designed to help you think about and implement projects faster and more efficiently. Learn how you can use these skills in your teaching, research, advising, and everyday life.

Concepts covered include problem solving, idea creation, communication, and validation of ideas.

**MAY 17, 2018**

Foster Center for Student Innovation
9:30 AM to 12:00 PM
